PROFESSIONAL SUMMARY

I am a frontend developer with 7+ years of experience. I build SPA and SSR applications with **Vue**, **Nuxt**, **React** and **TypeScript**. I like clear, fast interfaces and code that is still easy to maintain a year later. I work closely with product, analysts, design and backend — from task discussion to release; I also review code and help new developers settle in. I want to move into a Product Engineer role — owning the product, its data and outcomes, while keeping a strong frontend background.

PROFESSIONAL EXPERIENCE

FRONTEND DEVELOPER (SENIOR)

08/2026 — Present

Elisoft (Full-cycle software development)

- Building the frontend with **Vue 3**, **Feature-Sliced Design (FSD)** architecture and **Storybook** UI components in an **8-person frontend team**.

FRONTEND DEVELOPER (MIDDLE → SENIOR)

09/2021 — 05/2026

Leadgid (International CPA platform, affiliate/performance marketing)

cpa.leadgid.ru · money.leadgid.ru

- Built an **SSR application** with **Nuxt 3 + TypeScript**, hybrid rendering and SEO (dynamic sitemap, OpenGraph, Schema.org): organic traffic grew by about **50%**.
- Migrated a large application from **Nuxt 2** to **Nuxt 3**: Composition API, Pinia, Vite; **PageSpeed 30 → 73** on mobile and **99** on desktop, improved Core Web Vitals and reduced bundle size.
- Built an internal **SPA/CRM** with **React + TypeScript**: TanStack Query, React Hook Form, Zod, Zustand; authentication, role-based access and ECharts dashboards.
- Built **money.leadgid.ru from scratch**: modular monorepo, caching, admin panel with authentication and roles.
- **Mentored a junior developer**: onboarding, best practices and detailed code reviews.
- Built an interactive landing page with **Three.js**: scene, lighting, materials and scroll-driven animation.

FRONTEND DEVELOPER (MIDDLE)

02/2021 — 08/2021

Growth Point (Startup web studio)

levitacia.co · tmvo.ru

- Developed and maintained **5+ SPA and SSR applications** with **Vue 2** and **Nuxt 2** for commercial projects.
- Delivered **20+ user scenarios**: forms, catalogs, dashboards and dynamic interfaces on top of REST APIs.
- Streamlined frontend architecture: component structure, reusable modules and shared UI solutions.
- Set up and maintained tooling: **Webpack**, ESLint, Prettier, Git workflows.

FRONTEND DEVELOPER (JUNIOR) 05/2018 — 01/2021

RA-Studio (Digital agency)

clevergrad.ru · finnkoti.ru

- Developed and maintained **20+ commercial websites and web applications**: corporate sites, online stores, client services.
- Built **30+ responsive pages** and UI components for modern browsers and mobile devices.
- Integrated the frontend with **Bitrix** and **ModX**: templates, components and dynamic blocks.
- Worked with **JavaScript**, **jQuery**, HTML5, CSS3 and SCSS with cross-browser support.

SKILLS

Frontend: Vue.js (Vue 2/3), Nuxt.js (Nuxt 2/3), React, TypeScript, JavaScript (ES6+), HTML5, CSS3/SCSS.

State & data: Pinia, Vuex, Zustand, TanStack Query, React Hook Form, Zod, REST API.

Architecture & UI: Feature-Sliced Design, Storybook, responsive layout, reusable UI components.

Performance & quality: SSR, SEO, Core Web Vitals, bundle optimization, ESLint, Prettier, code review.

Tools: Vite, Webpack, Gulp (basic), Git, Docker (basic), Linux (basic), CI/CD (basic), Jira, Confluence, Figma, Swagger/OpenAPI.

Process: Agile/Scrum, code review, mentoring.

AI tools: Cursor, Claude, GitHub Copilot.

Also: Three.js, ECharts, Next.js (basic), Jest (basic), Accessibility (basic), Bitrix/ModX (legacy).

EDUCATION

Bachelor's degree, Computer Security 2014–2020

Saint Petersburg Electrotechnical University 'LETI' · Saint Petersburg, Russia

LANGUAGES

Russian — native.

English — B2 written / B1 spoken.
